RE: Pretreatment Program Major Modification Approval [VIA EMAIL]

Mr. Hodge,

On August 29, 2019, DEQ received a request for a major modification to the City of Burley's pretreatment program that would relax the local limits for chromium and silver. DEQ issued a request for public comment on October 17, 2019, and received comments from one individual. After considering the individual's comment, DEQ has approved the major modification.

The City must update its sewer use ordinance (SUO) to reflect the less stringent local limits prior to implementation. As part of the local limits evaluation and modification request, the City provided DEQ with draft changes to the SUO. This letter serves to approve those changes as submitted to DEQ. If the City makes any changes other than those outlined in the original request, the City must resubmit the draft changes to DEQ for approval.

If you have any questions or concerns, please contact me.

With thanks,

A handwritten signature in blue ink, which appears to read "Brynn M. Lacabanne".
